

Zipper Animal Containers

Skill level: Beginner

Featuring: Coats Polyester All Purpose Zipper

Technique:	Crafting
Designed By:	Iliana McGrath
Brand:	Coats
Crafting time:	Afternoon

Up-cycle plastic soda bottles into these cute zipper animal containers. Prepare the bottles and ahead of time and let the kids decorate them with bits of felt and googly eyes.

Supplies & Tools:

Coats Polyester All-purpose Zippers, 12" or longer
 Plastic bottles, 1 or 2 liters
 Felt, assorted colors
 Googly eyes
 Spray paint
 Stiff cardboard, 3" x 3" (owl)
 Pink Chenille stem (pig)

Additional Requirements:

Masking tape
 Craft knife
 Scissors
 Hot glue gun & glue sticks
 Craft glue
 Template for Owl
 Template for Pig and Frog

Zipper Animal Containers

DIRECTIONS:

Preparing Bottles:

1. Remove labels, clean, and dry plastic bottles. Using a craft knife, cut around the equator of the bottle. Use scissors to create a smooth cut at the desired height around the edge of the plastic bottle bottom. See steps 5, 6 and 7 for specific animal instructions.
2. Use masking tape to tape around the outside edge of the plastic bottle bottom to protect from spray paint. Use plastic-friendly spray paint as directed to paint the inside of the plastic bottle bottom; remove masking tape when dry.
3. Hot glue the zipper, starting from the end with the zipper pull, around the lip of the bottle. Open the zipper and hot glue to the lip of the second bottle. Trim away any excess zipper.
4. Embellish with felt and googly eyes to create animals. Children will have fun helping with this step.

Frog:

5. To create the frog, cut an asymmetrical line around the plastic bottle bottom so that the front of the frog is taller than the back. Also, roll up a small strip of felt to create a tongue. Add two black dots of felt for nose and felt according to pattern for the eyes

Owl:

6. To make the owl, use a plastic bottle top and a bottom (instead of 2 bottoms) to create the owl shape. Cut the feet, eyes, beak, face and ears according to the pattern. Make sure to glue the wings on above the zipper so that the zipper can still be opened and use a stiff base (stiff felt or cardboard) for the feet.

Zipper Animal Containers

Pig:

7. Cut nose and ears from pink felt according to pattern. To create the pig, use a stiff backing behind the material for the nose to give dimension and add a curled chenille stem tail to the back.
